CGP Management Employees

Dear Friends,

We extend our heartfelt thanks to you for the time, effort, expertise and resources you have dedicated to Freedom Is Not Free and to America's heroes through your support of two very important projects: the refurbishment of the family lounges at San Diego Naval Medical Center and the 1st Marine Division Behavioral Health Clinic. Ensuring that these facilities are as comfortable as possible for service members dealing with an injury, as well as for family members providing support, is an invaluable and lasting contribution.

More than 28,000 service men and women have been wounded in the war, and more than 3,900 have given their lives for our freedom. Many of the wounded are extremely young (the average age of a wounded service member is 18-24) and face an entire lifetime of "healing" and coping with disabilities.

The San Diego Naval Medical Center and the 1st Marine Division Behavioral Health Clinic are instrumental in the treatment and recovery process for these wounded warriors, providing care for both the highly visible effects of war, the injuries caused by IED blasts and enemy snipers, as well as the unseen effects of combat stress and Traumatic Brain Injury.

Your work, including the donation of over \$25,000 in materials and funds, along with the many hours given by your staff and employees, are forever appreciated.

The continued support of concerned Americans plays a vital role in ensuring that our wounded military personnel receive the assistance they deserve. So from all of us here at FREEDOM IS NOT FREE, thank you for supporting our wounded troops.

Very truly yours,

Rodney Smith
COO, Development Director
